Federal Election 1959

Nomination Of Candidates

Shortly after His Excellency the Governor-General has appointed a date for the forthcoming Federal Election, the Electoral Officer in each constituency will publish a notice which will give details with regard to the nomination of candidates including the lawest date by which nomination papers must be delivered to him.

In accordance with Regulation 44 of the Elections (House of Representatives) Regulations 1958 the Electoral Officer must fix the closing date for nominations on a day not later than the fourteenth day before polling day. In the majority of constituencies the Electoral Officer will probably fix the closing date twenty-one days before polling day. In a few constituencies where distances are great and communications difficult the date may be brought forward earlier than this, but in no case will it be earlier than twenty-eight days before polling day.

At least seven days clear notice will be giving in each constituency of the closing date for nominations and nomination papers can be delivered to the Electoral Officer any time between the publication of the notice and the final date fixed by him.
