Olson Appeals For Fund

In spite of the slow contribution to the Own Development Fund I have to tender my sincere appreciation for your kindness and generosity in responding to the call for the Development Fund launched for improvement of our fatherland.

Much of this money has been used for construction of the Afin Obu Owusu and the progress that has been made could be seen in the Afin on inspection by your delegates.

There is still, however, a lot of work to be done for completion of this building. Further more contribution on a very generous scale will be required from your Society, Union or individual well-wishers which I hope shall never be found wanting to the cause of their fatherland.

Please give generously and quickly to enable the completion of your After-16 June.
