KH Alko Lo Ice Cream & Its Si 'osi Temi

By Abdul W. Salau

We all eat Ice Cream but has any of us ever stopped to think why is it that we all enjoy ICE CREAM so much? It is "Because you and I like it" and we all know it is good.

Knowing that it is good is not sufficient. I am sure most of the readers would like to know: (a) What Ice Cream came into being (b) What makes it so good and (c) What Benefit and Food Value we derive from it. (d) ORIGIN OF ICE CREAM: It is interesting to know that 'ICE CREAM' is a recent version of 'CREAM ICE' or 'BUTTER ICE' as it used to be known, because of its creamy or buttery nature.

Most people think of ICE CREAM as an invention of the TWENTIETH CENTURY, but, in fact, it has lost its origin in the mists of time.

According to authentic evidence, it was recorded that ALEXANDER THE GREAT was the first in the Western World to enjoy 'Frozen Confectionery.'

NERO, the ROMAN EMPEROR, was also

understood to have ordered slaves to bring snow from distant mountains. This was flavoured with fruit juices and honey and he enjoyed it.

MARCO POLO, the famous Genoese Wanderer is also reported to have brought recipes for water and milk ices back to Europe in the THIRTEEN-THIRTY CENTURY. He borrowed the idea from the CHINESE who discovered the secret more than three thousand years ago, and thereby making it popular in the area we know today as ITALY.

CATHERINE DE MEDICI, in returning from a

trip to Italy in 1550, introduced this delightful food to FRANCE. The FRENCH KING liked it so much he had it put on the Royal Menus and succeeding MONARCHS kept it as the Court Favourite.

D E MARCO, French Cook to CHARLES THE FIRST, was also believed to be responsible for the introduction of this frozen delicacy into ENGLAND.

But not until the invention is England, in 1775 of the ICE Making machine 'Frozen DESSERTS' were a delicacy enjoyed only in a very limited circle of society. It is also believed
