Building for HIS future

THE UNITED AFRICA COMPANY looks to the future. It is using the money it makes through trade with West Africa to develop commercial and industrial operations in West Africa. During the last five years it has put back into West African enterprises, in the form of buildings, roads, plant and machinery, more than £10 million. In this way The United Africa Company is enriching West Africa's economy, raising her standard of living, and providing innumerable openings in industry or commerce for tomorrow's citizens.

LTC New Measure On Conservancy

Every Household Must Register

The health of the public is and it is of the greatest concern again in jeopardy by another threatened strike of the night soil men. The same five or more eminent called an emergency meeting at the LTC on Tuesday March 15, 1955, to discuss and finalize the arrangements for the municipality's conservancy. The Committee was unanimous on the question of putting the conservancy for Lagos and the Mainland into the hands of contractors.

Every angle was carefully debated and it was obvious that the town cannot be held in ransom by the men who now do the work.

Teachers will be invited, by way of entertainment, and it is to be hoped that many contractors will apply.

Sir Kefo, the Chairman, assured the members that he had no doubt that the personnel to cope with the tightly clearance will be thrown open in other than the one that now has the monopoly.

Up-to-date methods of dealing with this necessity, but unprofitable work have been adopted, thought out and orders placed for suitable lorries in the meantime the town council will place at the disposal of the contractors, all available vehicles for the purpose.

The Town Engineer's recommendation to make certain tasks to be carried out, but until such time as this Act material-

capacity from economic and plague As far as can be made to every household, who has as been in the habit of dealing with private contract men, to assist the LTC in its good job by REGISTERING WITH THE TOWN COUNCIL so that the conservancy can be more easily controlled. A by-law will eventually be passed to legalise this measure.
