Freedom of choice

When you go shopping and cannot find what you want at one dealer's, you go to another. And if he does not have what you like, there are still others to whom you may go until you find just what you want. You enjoy this great freedom of choice because there are many importing firms, European and African, who supply the goods you need. They are always competing with each other to bring you the kind of goods that will please you best.

Some of these companies sell direct to you. Others, like The United Africa Company, are principally wholesalers, and specialize in supplying African traders. But no single one of them has a monopoly of the trade.

Of course, when people make sure that every article they buy is of the best possible quality. That is why, out of every hundred articles sold in West Africa, three come from The United Africa Company.
