SHELL

WITH

I.C.A.

IGNITION CONTROL ADDITIVE (incorporating tricresyl phosphate)

—the first and most complete answer to pre-ignition and spark plug fouling

It gives you smoother running . . . preserves full power performance

Bigger mileage . . faster . . smoother running

more power to use . . . to feel . . . to KEEP!

Power goes UP . . . running costs go DOWN—when you start using New Shell with I.C.A. This new motor spirit has higher anti-knock and energy value and gives you snappier get-away . . . Livelier pick-up . . . Effortless pull on hills . . . Less gear-changing . . . You can drive farther, faster, at less cost and with less effort.

But New Shell is *more* than a higher-powered motor spirit . . . Shell, and only Shell, has I.C.A. (incorporating tricresyl phosphate). I.C.A. lifts the dead hand of pre-ignition and spark plug fouling from your engine and unleashes its full, smooth power. No other motor spirit combines the driving power of Shell with the power-preserving action of I.C.A.

For the man who judges quality—it's **SHELL** *every time*
