The quest to extend the grass-growing season through winter is explained to Mr. Bisade Onayinka, from Osoa, Western Nigeria, during a recent visit to the Royal Dairy Show at Olympia, London.

Mr. Onayinka, who is a government agricultural officer, is now in England on a three-year course at the Grassland Research Institute at Hurley.

He is looking at the pictures and diagrams of grassland in Morocco and Portugal. Below them are samples of grass from these countries which have been cultivated in England for research. Explaining the exhibit to him is Mr H. W. Rogers, of the Plant Breeding Institute, Cambridge. The exhibit shows that even with the use of fertilisers and special grass varieties, there is still a long gap between autumn and spring in the grass-growing season.

NIGERIAN PORTS AUTHORITY

NOTICE OF INVITATION TO TENDER

Construction of Junior Service Quarters and Various site works at Port Harcourt, Eastern Nigeria.

The Nigerian Ports Authority announces its intention to invite tenders for the following works at Port Harcourt :-

The construction of 24 blocks of 4 quarters each on a site in Port Harcourt. There are existing on the site various buildings which have to be completely removed before construction can commence on the new buildings. Included in the site works are roads, paths, water supply reticulation system, sewers and surface water drains.

Contractors who have the requisite experience, staff and plant to undertake these works are invited to apply to the Authority's Chief Engineer, 216, Broad Street, Lagos, to be included in the list of those to be invited to tender. The application must be supported by evidence of the required experience, staff, plant and financial background. Photographs of works which have been undertaken by the contractor in the past 2 years will be of assistance.

The Authority reserves the right to select a short list of Contractors to be invited to tender and will not enter into correspondence with any not selected. Canvassing will disqualify the applicant.

The site may be viewed by appointment with the Port Engineer, Port Harcourt.

The closing date for applications will be 26th November, 1962.

At Random Notes At The Trade Fair BY "THE JOTTER"

Tomorrow is the last day of the NIGERIAN INTERNATIONAL TRADE FAIR which started about three weeks ago on Victoria Island, Lagos. Before the the manufacturer' representatives do their packing up, I took the flad world's eye views of the many pavilions, this time with a well known personality in the person of Senator the Hon. Dr. M. A. Majekodunmi Administrator of Western Nigeria. Dr. Majekodunmi who is also Federal Minister of Health was accompanied by some of his Commissioners.

India Government Issues Warning

INDIA— The Government of India have, in a recent notification prohibited the sending out of India by sea, land or air, articles of the following descriptions—

All tickets, coupons, advertisements, notifications to prize-winners relating to a prize competition or lottery which has not been authorized by law; posters, letters, lists of lucky winners relating to any Gift Scheme in India which is not authorized by law, announcing to residents of countries abroad that an individual has been a lucky winner and asking him to remit money, for any reason, for the despatch airtight; poster relating

to any Money Circulation Scheme which is not authorized by law which invites residents of countries abroad to remit money for becoming beneficiaries of returns many times higher than the investment.

This measure is yet another effort on the part of the Indian authorities to curb the undesirable activities on the part of some

anti-social elements in India who have in the past managed to succeed in misleading and taking advantage of some residents of some countries abroad.

Residents in Nigeria who receive, through the post, any material of the nature specified earlier, should take warning and not acknowledge or, in any way, acquiesce upon it.

A recent study of Viscount Inley, son Her Royal Highness Princess Margaret the Earl of Snowdon, who is one year old on November 3.

This delightfully informal picture was taken by the Earl of Snowdon.

Hong Kong

I understand that Hong Kong carvings are being exported to many parts of the world. The ivory carvers of this British Colony of Hong Kong are passing on their skill from one generation to another generation.

I was shown a wide range of carvings including lamp-shades, houseboats, human figure on horse back and all Chinese gods.

Western Region

In fact, Western Region pavillion is envy of all. Inside that Pavillion I saw cocoa (the wealth of that Region) being displayed in bags and palm kernel products. Yoruba cloth weavers from Oyo and Iseyin gave us a good demonstration of new pattern in local woven clothes.

Other distinguished visitors to the Fair this week were Sir Francis and Lady Ibiham, the governor of Eastern Nigeria, who, accompanied by Minister of Commerce and Industry Zenna Bukar-Diphearima and the Director of the Fair, Mr R. H. C. Hammond toured the International Trade Fair.

Before the scene was shifted to the Western Region pavillion for an affair which one could describe as WESTERN REGION TRADE FAIR DAY; the Administrator visited many foreign Government pavillions such as Russian, Poland, Rumania, Germany, Canada, British, U. S. A., Israel, and Holland.

At India

The goods produced by

India varied from textile goods up to cloth weaving machines, electrical accessories, fans, rice mills, flour, cotton and jute manufactures and so on. I understand that Indo-Nigerian trade is experiencing an upward trend and the famous slogan in India is "Build Machine, Build India," and had built so many machines for their tools.
